No R.a.c./27-24 Office of the President, District Board,
Hassan, Dated 12th January 192[illegible].

From

N. S. Nanjundiah, Esq.,
President, District Board,
Hassan.

To

B. KAGAPPA, ESQ., Bar-at-Law,
Secretary to the Government of His Highness the Maharaja
of Mysore, Local & Legislative Departments,
Bangalore.

Through the Deputy Commissioner, Hassan District

Jud 94-24—8

Sir,

With reference to your letter No. L. 4849/41. 94-24-6 dated 9th Jany. 25, stating that the representation of the Hassan District Board re: the proportion of contribution leviable on each of the local bodies concerned for meeting the cost of the Engineering Staff to be entertained by Government for the sanitary and town planning schemes of local bodies etc., I have the honor to sequest that you will be so good as to kindly arrange to send a copy of the draft rules for the opinion of the District Board, beforehand.

I have the honor to be,
Sir,
Your most obedient servant,

President,
District Board, Hassan.

Forwarded with enclosures.

Deputy Commissioner
Hassan Dist

Subd. The rules referred to can only be formulated after the chief Engineer submits the detailed proposals for specific schemes under para 3 of Govt. order No. D. 1364-82./Jud 94-24-1 3 dated 18th Sept. 1924. This will be kept in view.

2,

3 The Chief Inspector's proposal were received something of a surprise & Parliamentary approval & plans have already been passed. He was not inclined to entertain proposals regarding contributions from Rural Councils & Port Boards.

6239 - 21/1.

The Comptroller was asked to make the charge for Parliamentary powers in the Bill for improvements. The Bill are already passed or have to pass 1895. on agreement of the Works and Parliament charge for Works executed by the Board.

Mr. Williamson whether they will be prepared to contribute & the Parliamentary powers in question. It probably will have to be paid for the also to be charged part of the cost & the income for the project perhaps.

4. The Harbour Act of may perhaps be informed for the present that rules have not yet been framed. Orders are also obtained as regards the by-laws & other works necessary for Corporations from Local Authorities

5 X Clauses extracts of usual Clauses, drawn every day.

6 Please put up the file referred to in portion marked X, & also please note officially where the contribution optional as per Act in each file (vide portion marked ✓) & if so why rules are at all required. If no provision is made by Corporation Act for that E.g. might be a charge on Board, what Corporation Works was in not clear

General and Revenue Secretariat. | MR File No. 94 of 1924

Serial No.

5) The files relating to the establishment for Town Planning Schemes are submitted (Flag A). For orders regarding the establishment vide Flags K and L) The opinion of the Council at first was that 50% of the cost of the establishment should be met by Government and the remaining 50% recovered by a pro rata levy from the local bodies on whose behalf the work was undertaken. Vide Council Resolution of 3rd October 1923 (page 13 Flag A).

7) On opinion furnished by the Financial Secretary, it was decided at the meeting of the Council held on 20th December 1923 that the Municipalities may be consulted as to the scheme indicated in the Council Resolution, the probable incidence on each being also intimated to them and that pending final orders on the scheme, the local Public Works Staff (Sub Division Officers) may be required to assist the unicipal Councils in respect of schemes of Sanitary Improvement, Town Planning etc., (Page 18, Flag A). The matter being referred to the Chief Engineer, he recorded his note as to incidence of cost with reference to which the Member in charge was of opinion that the matter deserved further consideration in Council (vide pages 20 and 21)

10) On the 27th March 1924, it was resolved in Council that an Extra Assistant Engineer may be attached to the Water Supply and Sanitary Division, the cost being debited to

Notes—Contd. Sheet

grant for Sanitary and other Improvements in - Municipalities (page 23). Vide also Financial Secretary's enquiry as regards the source of meeting the cost and the then First Member's note against it on page 24. This was thereafter considered again in Council on the 10th July 1924 with reference to Budget grant under "30. Public Improvements", when it was decided that the cost of the establishment (which was later on revised - Flag Z) be met from the -- grants under "30. Grants for Public Improvements (2) Improvements of Water Supply in - - Towns and (3) Improvement of Town and Minor - Municipalities" and any contributions from -- the Municipalities and District Boards (Page 28 Flag A) vide also paras 48 and 49 of the - notes (pages 38 and 39).

Serial No.

11) The word 'any' and the trend of discussions seem to suggest that it was not the intention to levy contribution from all the local bodies and the contribution, if any, will have to be recovered from those local bodies for which work is undertaken by the establishment. This may be a certain percentage of - the establishment charges to be recovered from the body concerned for the execution of the - work for which rules have to be framed per- - haps in consultation with the Chief Engineer and passed after ascertaining the opinions of all the local bodies on the question in general.

13) What the idea of the Council by the words "any contribution" is not clear to me.

14) I would suggest the following simple rules

(1) The whole cost of the establishment should be borne by Govt in the first instance, as provided for in the P.W Budget

(2) If any Municipality or Local Board requisitions the establishment for initiating a scheme, the Municipality or L.B. concerned will contribute the T.A. charges, & also a certain percentage of the total cost (exact percentage the figure in consultation with the Chief Engr) the payment of T.A. will continue until the Scheme is put in working order.

(3) After the Scheme is in working order, the Govt Special Supervision of technical details will be undertaken free; but if any defect is detected by the Govt Engr the Local Engineer, the T.A. for the Engineer that shall be paid by the Board.

15) It does not seem necessary to amend Board's answer — the rules may be published; & advice as to the figures only if the rules are agreed to in advance in each case.

(8) The annual cost of this establishment is about Rs.5,000 and it has been decided to meet it from the Government grants allowed for "Improvement of water supply in towns" and "Improvement of towns and minor Municipalities" under the head "Grants for public improvements". I do not think it is necessary to require the Local Bodies to contribute anything towards meeting this cost. When a large number of Local Bodies ask for the services of this staff and its strength has to be substantially increased, the charge to be borne by Government will become heavy and it may be then considered to what extent the Bodies benefited should be required to bear the cost of this establishment.

(9) As regards the proposal to bring this establishment on the Public Works Budget, I would invite attention to my note dated 14th September 1924 and the order passed in accordance with the suggestion made in it. Public Works is not the proper head for this

Serial No.

this expenditure ~~and it~~ might is rightly classified under the head "30. Grants for Public Improvements"

2 0) I believe that the main service of this establishment will be advisory and mostly consist in carrying out surveys and preparing plans and estimates. ~~The work to be done on the spot is not likely to be much~~ When members of this establishment have to go to the places where they ~~are~~ have either to carry out surveys or actually execute works, the travellings allowances due to them may be required to be paid directly by the Bodies concerned. Where the same journeys are made in the interests of more than one Body, the apportionment of the charges between them may be left to the discretion of the Executive Engineer, Water Supply Division.

2 1) I do not think this staff is concerned with the working stage of the schemes in the preparation of or execution of which it ~~might have~~ may take part. There is, therefore, no necessity, I think, to make any provision on the lines suggested in Rule (3) of the Rules proposed by the Second Member.

3

2 2) For the present, I think, it is sufficient to tell the Local Bodies who propose to avail themselves of the services of this staff that they need not pay anything towards its pay and all that they will be required to pay is the travelling allowances of its members who have

have to visit places where surveys have to be made or works carried out.

G. O. No. L. 7398-7419—Ml. 94-24-9, dated 17th April 1925.

Staff sanctioned for work in connection with Sanitary and Town Planning Scheme.

Stating that local bodies who avail themselves of the services of the ——— will be required to bear its travelling allowance charges but will not for the present be required to contribute towards its pay.

READ—

Para 2 of Government Order No. L. 1364-82—Ml. 94-24-1, dated the 18th—21st August 1924, directing that the cost on account of the staff sanctioned for work in connection with the Sanitary and Town Planning Schemes of local bodies be met from the grants under "30. Grants for Public Improvements, (2) Improvement of water-supply in towns, (3) Improvement of Towns and Minor Municipalities" and from any contributions by the Municipal Councils and District Boards.

2. Letter No. R. O. C. 126-24, dated the 2nd—8th December 1924, from the President, Hassan District Board, submitting copy of the resolution of the Board that their finances do not permit them to pay any contribution and that the Government Order of the 18th—21st August 1924, may be modified suitably so as to relieve them of the burden of paying contributions for this purpose.

3. Correspondence ending with letter No. R. O. C. 127-24, dated the 12th—16th January 1925, from the President, Hassan District Board, in the matter.

ORDER No. L. 7398-7419—Ml. 94-24-9, DATED 17TH APRIL 1925.

The annual cost of the establishment as revised in Government Order No. L. 5091-5109—Ml. 94-24-7, dated the 19th—22nd January 1925 is about Rs. 5,000 and Government do not think it necessary to require the local bodies to contribute anything towards meeting the cost. When a large number of local bodies ask for the services of this staff and its strength has to be substantially increased and when the charge to be borne by Government becomes heavy, it may be considered to what extent the local bodies benefited should be required to bear the cost of the establishment.

2. The main service of the establishment will be advisory and will mostly consist in carrying out surveys and preparing plans and estimates, and it will not be concerned with the working stage of the schemes in the preparation of which it may take part.

3. Government are therefore pleased to direct that the local bodies who propose to avail themselves of the services of this staff though not required to contribute towards its pay, should bear the travelling allowances of its members who have to visit places where surveys have to be made or works are carried out. Such travelling allowances should be paid directly by the bodies themselves and where the same journeys are made in the interest of more than one body, the apportionment of the travelling allowances among them will be left to the discretion of the Executive Engineer, Water Supply Division.
